

# ViewStream 100

Digital Media Player for  
Digital Signage

## FEATURES

- MPEG-1, MPEG-2, MPEG-4 video playback
- MP3 Audio
- High resolution MPEG & JPEG
- Stills
- S-Video, Composite or VGA signal output
- Stereo Audio out
- Data logging
- Scheduling
- Mini USB 2.0 Client Port

## OPTIONS:

- RS-232 input for Barcode reader

The ViewStream 100 is a digital video and audio player designed for the playback of MPEG-1,2 & 4 and still picture on TV and Video monitors in commercial environments. The videos are stored and played back directly from solid state Compact Flash memory card. Ideal for Out-of-Home & In-Store digital signage applications.

### Features:

#### Display Output:

The Video can be played on TV, LCD and Plasma monitors supporting composite, S-Video and VGA (640x480)

#### Storage Medium:

CompactFlash memory all sizes up to 4GB

#### Audio Output:

Stereo audio (L/R)

#### Playback Modes:

##### Loop mode:

An individual file or groups of files can be set to loop continuously

##### Auto/Manual:

Playback commences on power-up or optionally with DVD type user commands via a button interface.

##### Playlist/Default:

Video tracks play according to a playlist created with DV Studio Advanced or in filename alphanumeric order.

##### Scheduled:

Up to 40 playlists can be scheduled individually

#### Interactivity:

A range of interactive options are available including touch screen, buttons as well as innovative switching options.

#### Barcode scanner support:

An optional RS-232 serial port is provided for interfacing with a barcode reader. This enables users to scan barcodes and have a related track play.

#### Data Logging:

Create a log file on the CF card containing a cumulative log of events that lists the date, time and track that was played.

#### USB support:

A mini USB 2.0 Client port is provided at the front panel for content update via laptop or similar, without removing the CF card.

#### MPEG-4 (DivX) support:

DivX ver 5 to 2Mbit/s at PAL (720x576) and NTSC (720x480) resolution.
