OPTIONS:

- RS-232 input for Barcode reader

The ViewStream 200 is a digital video and audio player designed for the playback of MPEG-1,2 & 4 and still picture on TV and Video monitors in commercial environments. The videos are stored and played back directly from solid state Compact Flash memory card. Ideal for Out-of-Home & In-Store digital signage applications.

Features:

Display Output:

The Video can be played on TV, LCD and Plasma monitors supporting composite, S-Video and VGA (640x480)

Storage Medium:

CompactFlash memory all sizes up to 4GB

Audio Output:

Stereo audio (L/R)

Playback Modes:

Loop mode:

An individual file or groups of files can be set to loop continuously

Auto/Manual:

Playback commences on power-up or optionally with DVD type user commands via a button interface.

Playlist/Default:

Video tracks play according to a playlist created with DV Studio Advanced or in filename alphanumeric order.

Scheduled:

Up to 40 playlists can be scheduled individually

Interactivity:

A range of interactive options are available including touch screen, buttons as well as innovative switching options.

Barcode scanner support:

An optional RS-232 serial port is provided for interfacing with a barcode reader. This enables users to scan barcodes and have a related track play.

Data Logging:

Create a log file on the CF card containing a cumulative log of events that lists the date, time and track that was played.

USB support:

A regular USB 2.0 Host port is provided at the front panel for content update via USB memory stick, without removing the CF card.

MPEG-4 (DivX) support:

DivX ver 5 to 2Mbit/s at PAL (720x576) and NTSC (720x480) resolution.
