The ViewStream 300 is a digital video and audio player designed for the playback of MPEG-1,2 & 4 and still picture on TV and Video monitors in commercial environments. The videos are stored and played back directly from solid state Compact Flash memory card. Ideal for Out-of-Home, In-Store digital signage applications.

Features:

Display Output:

The Video can be played on TV, LCD and Plasma monitors supporting composite, S-Video, Component (YPbPr) and HD VGA 1280x720 @ 60Hz

Storage Medium:

CompactFlash memory all sizes up to 8GB

Audio Output:

Stereo audio (L/R)

Playback Modes:

Loop mode:

An individual file or groups of files can be set to loop continuously

Auto/Manual:

Playback commences on power-up or optionally with DVD type user commands via a button interface.

Playlist/Default:

Video tracks play according to a playlist created with DV Studio Plus or in filename alphanumeric order.

Scheduled playback:

Up to 40 playlists can be scheduled. Daily, Weekly, Monthly.

Interactivity:

16 independent inputs for external buttons or touch panel connection.

RS-232 support:

An RS-232 serial port is provided for interfacing with a barcode reader. Also supports command control of player

Data Logging:

Create a log file on the CF card containing a cumulative log of events that lists the date, time and track that was played.

USB support:

Automatic USB port content update. Update content using USB without turning off the player.

Hardware Watchdog Function:

Auto reset if monitor "Locks Up".

OSD Configuration Menu:

Can display day-of-the-week (Monday, Tues, etc.)
