

Application #10

AMT-N5314: 10.4" Panel mount Composite PAL TFT LCD monitor

The Product

The AMT-N5314 is a 10.4" open frame TFT LCD monitor which can accept PAL or NTSC video inputs. The LG.Philips LP104V2 LCD panel and MAV-1280 controller board are housed in a lightweight stainless steel frame. The unit can be supplied with an external power supply (SSL40-7612) if required.

The Application

Nineteen of these monitors were provided to a TV network station for installation in the control rooms of their head office. They were used to monitor and control the various broadcasts.

Features

- Lightweight systems for easy installation.
- Clear and bright 10.4" 640x480 TFT LCD display from LG.Philips.
- Analog OSD (On Screen Display) switch at the back of the frame, used to adjust features such as colour, contrast, brightness and selecting the video input source.
