

Application #024

AMT-N6000 10.4" Fully Enclosed TFT LCD PAL Monitor (Prison Security)

The Product

The AMT-N6000 is a 10.4" TFT LCD Fully Enclosed PAL Monitor: it incorporates the LG Philips 10.4" LP104V2 display with a resolution of 640 x 480, together with the MAV-1280 PAL input industrial control card. It is 240 volt powered and has the digital membrane type on screen display switch mounted at the front for picture adjustment.

The units were built fully enclosed and fitted with sliding mounting brackets at the side.

The Application

We supplied several of these units and they were used for security camera surveillance in a prison.

Features

- High quality LG Philips 10.4" LCD TFT screen
