Dim : 410x204x42 mm
Weight: 2.3Kg

Dim : 396x180x44/32 mm
Weight: 1.3Kg

General Description

The unit features a full MF (multi-functional) keyboard with separate numeric, cursor and control keypads. The robust industrial grade trackball has a ball diameter of 38mm and allows accurate and precise cursor control. The keyboard part is sealed to IP65, the self-adjusting PTFE seal of the trackball enables an IP65 static (ball at rest) protection grade.

Enclosed Keyboard

The keyboard and trackball are combined in one compact, robust steel enclosure and will fit into 19" rack drawers (1RU) or can be used as a desktop model.

Panel Mount Keyboard

Ideal for front panel mounting by means of eight M4 threaded studs. Operation of the keyboard and trackball is possible at all mounting angles (from horizontal to vertical). Metal covers on the backside protect the mechanical and electronic components.
