Dim: 328 x 204 x 42 mm  
Weight: 2.0Kg

Dim: 314 x 180 x 20 mm  
Weight: 0.5 Kg

**General Description**

The unit features a full MF (multi-functional) keyboard with integrated industrial TouchStyk. The TouchStyk combines the functionality of a mouse and the flexibility of a joystick in one convenient, small footprint package. It is a precise cursor control device using a capacitive sensing technology. The cursor movement is controlled by pushing slightly on the top of the stick and moving the finger sideways. It can be operated while wearing gloves and it is completely sealed to IP65 by the rubber cover.

**Enclosed Keyboard**

The keyboard and TouchStyk are combined in one compact, robust steel enclosure and will fit into 19" rack drawers (1RU) or can be used as a desktop model.

**Panel Mount Keyboard**

Ideal for front panel mounting by means of six M4 threaded studs. Operation of the keyboard and TouchStyk is possible at all mounting angles (from horizontal to vertical). Metal covers on the backside protect the mechanical and electronic components.

**Ordering Information**

Example: KBTS103 S1 PS2 = KBM103S1 + PS2
