- **Short travel key switches**
- **Positive tactile feedback**
- **Capacitive Touchpad**
- **PS/2 or USB compatible**

Dim: 475 x 215 x 57mm

Dim: 432 x 152 x 26mm

**General Description**

The KSTP105 keyboard uses short travel switches with low pressure and positive tactile feedback for convenient, fast, data entry. The keyboard features an integrated Touchpad. The IP67 rating level of the panel mount version is obtained thanks to the inherent sealing capabilities of its polyester front and of the touchpad technology with solid state sensing. The fields of industrial applications are very wide; indoor and outdoor where a higher input speed is required while maintaining outstanding sealing characteristics.
