Dim : 410x204x65 mm
Weight: 2.8Kg

Dim : 396x180x60/47 mm
Weight: 1.5Kg

General Description

The unit features a full MF (multi-functional) keyboard with separate numeric, cursor and control keypads. The large, robust industrial grade trackball has a ball diameter of 50 mm and allows highest precision in cursor control. The keyboard part is sealed to IP65, the self-adjusting PTFE seal of the trackball enables an IP65 static (ball at rest) protection.

Enclosed Keyboard

The keyboard and trackball are combined in one compact, robust steel enclosure. The unit has been designed to be used as a desktop model.

Panel Mount Keyboard

Ideal for front panel mounting by means of eight M4 threaded studs. Operation of the keyboard and trackball is possible at all mounting angles (from horizontal to vertical). Metal covers on the backside protect the mechanical and electronic components.
